

POND OR LAKE TREATMENT NOTICE

Property owners in this area are planning to have the waterbody treated for nuisance aquatic weeds, algae or floating/emergent vegetation. This notice is required by the MDEQ (Michigan Department of Environmental Quality) prior to the first treatment of each calendar year if your property falls in or within 100' of the area of impact.

Treatments typically begin in late April and may continue until early October depending on the program. The frequency of these treatments can range from every 2 to 4 weeks. Due to changing weather conditions, exact dates cannot be established at this time. Contact our office with the notice number at the top of the page for more information on treatment dates and treatment area.

Please look for large yellow or bright colored signs (See back for example) that will be posted every 100ft along the treatment area and up to 100' away. These signs will be posted the day of treatment and have the date and time of treatment, chemicals used and the appropriate restrictions for swimming, irrigation of your lawn and/or crops, drinking (main source of drinking water), and fish consumption. All signs must be left in place until all restrictions expire. If there are no restrictions in place then the signs can be discarded 24 hours after treatment. A sample of the treatment notification sign is on the back of this letter which also shows water use restrictions.

We may use one or more of each product listed on the back of this page depending on the target pest. Please watch for the notification signs in your yard. The products used for that particular treatment will be marked with a check next to the product on the posting sign. We use new posting signs for each treatment.

Please call our office at 586-336-7663 if you have any questions.

NOTICE

DO NOT REMOVE POSTING SIGNS/MAPS FOR 24 HRS OR UNTIL ALL WATER USE RESTRICTIONS HAVE EXPIRED

This area of _____ was chemically treated _____
WATERBODY MONTH/DAY/YEAR

at _____ for the control of an aquatic nuisance under: (select one of the following)

- DEQ PERMIT NO. **ANC**
- DEQ Certificate of Coverage No.
- PERMIT by Rule, pursuant to R323.3102 (2)

The following water use restrictions apply through the expiration date indicated below:
Swimming/entry in the treatment area be avoided while applicators are applying chemicals.

The chemicals used for Aquatic Nuisance Control are registered by the U.S. Environmental Protection Agency and the Michigan Department of Agriculture and Rural Development. The potential for damage to fish and other non-target organisms is minimal provided that the product is used as directed on the product label and the permit. To minimize the possible effects on health and the environment, the treated water is restricted for the above purposes.

For permitting information contact: Department of Environmental Quality, Water Resources Division, PO Box 30458, Lansing, MI 48909-7958, telephone: (517) 284-5593, e-mail: DEQ-WRD-ANC@michigan.gov
